The essentials of bipolar disorder diagnosis and treatment

The Bipolar Disorder pocketcard Set contains concise clinical information on the diagnosis and management of bipolar disorder, including:

- DSM-IV criteria for manic, hypomanic, major depressive, and mixed episodes
- DSM-IV coding for bipolar and related disorders
- Screening tools such as The Mood Disorder Questionnaire for mania screening and the WHO Well-Being Index for depression screening
- The Montgomery-Asberg depression rating scale and Young mania rating scale
- Mania treatment and prophylaxis algorithms and drug regimens
